PROFESSIONAL SUMMARY

Aspiring AI Engineer and Final-year B.Tech Artificial Intelligence & Data Science student with hands-on experience in Machine Learning, Deep Learning, Generative AI, NLP, and Computer Vision. Built end-to-end AI applications using Python, FastAPI, LangChain, and vector databases. Seeking an AI Engineer or Machine Learning Engineer role to build scalable AI solutions.

EDUCATION

B.Tech, Artificial Intelligence & Data Science

Graduation: 2027

Prathyusha Engineering College - CGPA: 8.25 / 10

TECHNICAL SKILLS

- **Languages:** Python, SQL
- **Machine Learning & Deep Learning :** TensorFlow, PyTorch, Scikit-Learn, CNN, Neural Networks
- **Generative AI:** LangChain, RAG, Hugging Face, OpenAI API, Gemini API, Flowise, LlamaIndex
- **Computer Vision:** OpenCV, Face Recognition, Image Processing
- **NLP:** Tokenization, Embeddings, Text Processing
- **Tools & Platforms:** Git • VS Code • Google Colab • Kaggle • Jupyter Notebook • Docker • Postman
- **Data Base :** MySQL, Pinecone, ChromaDB , PostgreSQL, FAISS, MongoDB

EXPERIENCE

Machine Learning Intern - Femtosoft Technologies

Jul 2025 – Aug 2025

- Completed a structured internship applying core ML concepts to real-world data problems using Python and Scikit-learn.
- Performed data preprocessing, model building, and evaluation; gained practical understanding of end-to-end ML workflows.

AI/ML Intern - Beaurroi Technologies Pvt. Ltd.

May 2026 – Jul 2026

- Built AI Hire, an AI-powered recruitment platform, developing REST APIs with Python and FastAPI for authentication, job management, and resume parsing.
- Implemented JWT-based authentication with role-based access control for Candidate and Recruiter portals.
- Integrated AI/NLP resume parsing and scoring engines (ATS, Match Score) using Gemini and Groq APIs, and designed the MySQL database schema.

PROJECTS

Multimodal RAG Chatbot | Python, LangChain, Pinecone, REST APIs

Dec 2025

- Built a unified vector store pipeline to index PDFs, images, and videos.
- Integrated Pinecone for high-speed, low-latency vector similarity search.
- Used LangChain to orchestrate a decoupled, testable retrieval and generation architecture.

AI Powered smart Recruitment system | [GitHub](#) | Python, FastAPI, React.js, MySQL, JWT, REST APIs

Jun 2026

- Developed a full-stack platform using FastAPI and React with secure JWT role management.
- Integrated Gemini/Groq APIs for automated, AI-driven resume parsing and scoring.
- Built intuitive Candidate and Recruiter dashboards with structured, API-driven workflows.

AI SQL Assistant | [GitHub](#) | Python, LangChain, LLMs, SQL

Jun 2026

- Developed an AI-powered assistant using Python, LangChain, and LLMs to automate SQL query generation from natural language with schema-aware retrieval.

ResearchX AI | [GitHub](#) | LangChain, CrewAI, FastAPI, Telegram Bot, Python

Mar 2026

- Built a multi-agent research assistant with CrewAI, LangChain, FastAPI, and Telegram Bot supporting automated research, document analysis, and PDF report generation.
- Built a Telegram bot interface for real-time interactions and PDF report generation.
- Streamlined research workflows by integrating automated web and document search.

CERTIFICATIONS & ACHIEVEMENTS

Certifications

- NPTEL – The Joy of Computing Using Python
- NPTEL – Python for Data Science
- AWS Skill Builder – Cloud Essentials
- Microsoft – Generative AI and AI Agents

Achievements

- Selected for Smart India Hackathon (SIH) at the college level
- 5th place – Aarambh Hackathon conducted at VelTech University
- Winner – Code Debugging Competition, college-level
